

The logo features a pink square on the left containing the text 'ECE' over '1010'. To its right is a light red square, and further right is a green square containing a large black pi symbol ( $\pi$ ). A grey signal wave graphic overlaps the boundaries of these three colored areas.

**ECE  
1010**

# **Introduction to Engineering Problem Solving I**

---

**Lecture Notes by:**

**Dr. Mark Wickert  
ECE Department  
University of Colorado at Colorado Springs  
Colorado Springs, CO 80933-7150

# Table of Contents

## 1 Engineering Problem Solving

Engineering in the 21st Century .....	1-1
Recent Achievements	1-1
The Future: <i>Grand Challenges</i>	1-2
The Engineering Environment	1-2
Computing Systems .....	1-3
Hardware Organization	1-3
Software Interface	1-3
Software Tools	1-4
High-Level Language Program Development	1-4
MATLAB Program Development	1-5
An Engineering Problem Solving Methodology .....	1-5

## 2 The MATLAB Environment

Characteristics .....	2-1
Scalars, Vectors, and Matrices .....	2-2
Variable Initialization	2-3
The Colon Operator	2-4
Special Values and Matrices	2-5
User Prompting .....	2-7
Output Display/Print Formatting .....	2-8
The x-y Plot Command .....	2-10
Data File Commands .....	2-11
Scalar and Array Operations .....	2-14
Scalar Operations	2-14
Array Operations	2-15
Operator Precedence	2-16
Numerical Limitations	2-17
Additional Plot Types and Plot Formatting .....	2-19
Special Forms of Plot	2-19
Multiple (Overlay) Plots .....	2-21
Line and Mark Styles	2-22
Axis Scaling	2-25
Subplots	2-26
Problem Solving Applied .....	2-27
Problem Statement	2-27

Input/Output Description 2–28  
 Hand Example 2–28  
 Algorithm Development 2–28  
 Testing 2–29

### 3 MATLAB Functions

Overview . . . . . 3–1  
 Mathematical Functions . . . . . 3–2  
     Common Math Functions 3–2  
     Trigonometric and Hyperbolic Functions 3–3  
     Complex Number Functions 3–6  
 Polynomial Functions . . . . . 3–12  
     Polynomial Evaluation 3–13  
     Polynomial Operations 3–14  
     Roots of Polynomials 3–19  
 Functions of Two Variables . . . . . 3–23  
     3-D Plotting Options 3–25  
 Data Analysis Functions . . . . . 3–27  
     Simple Analysis 3–27  
     Sample Statistics 3–29  
     Histograms 3–31  
     Flow Control using a Selection Statement 3–32  
     The MATLAB `if` Statement 3–33  
     Relational and Logical Operators 3–34  
     More `if` Code Blocks 3–38  
     The `switch (case)` Code Block 3–39  
     Logical Functions 3–41  
 Problem Solving Examples . . . . . 3–46  
     Statistical Measurements of a Speech Utterance 3–46  
 Writing MATLAB Functions . . . . . 3–52  
 Functions for Random Number Generation . . . . . 3–58  
     Uniform Random Numbers 3–58  
     Gaussian Random Numbers 3–63  
 Matrix Manipulation Functions . . . . . 3–66  
     Rotation 3–66  
     Flipping 3–66  
     Reshaping 3–67  
     Extraction 3–67  
 Looping Structures . . . . . 3–72  
     The `for` Loop 3–72  
     The `while` Loop 3–74

## 4 Linear Algebra and Matrices

Overview .....	4-1
Matrix Operations .....	4-1
Transpose	4-1
Dot Product	4-3
Matrix Multiplication	4-4
Matrix Powers	4-6
Matrix Polynomials	4-8
Problems Solving Applied: Protein Molecular Weights .....	4-11
Matrix Functions .....	4-12
Matrix Inverse and Rank	4-12
Determinants	4-16
Problem Solving Applied: A Simple Pattern Recognition Model .....	4-20
Eigenvectors and Eigenvalues	4-22
Decompositions	4-29

## 5 Solutions to Systems of Linear Equations

Overview .....	5-1
Graphical Interpretation .....	5-1
A Pair of Linear Equations with Two Unknowns	5-2
Linear Equations with Three Unknowns: The Intersection of Planes	5-4
M Hyperplanes of N Variables Each	5-5
Solutions Using Matrix Operations .....	5-7
Matrix Division	5-8
Matrix Inverse	5-9
Problem Solving Applied: Electrical Circuit Analysis .....	5-14
Kirchoff's Voltage Law	5-14
Kirchoff's Current Law	5-15

## 6 Interpolation and Curve Fitting

Overview .....	6-1
Interpolation .....	6-2
Linear Interpolation	6-3
Cubic-Spline Interpolation	6-8
Problem Solving Applied: Rise-Time and Fall-Time Determination ...	6-11
Rise-Time and Fall-Time Definitions	6-11
Using Interpolation to find and	6-12
Problem Solving Applied: Robot Arm Manipulators .....	6-15
Problem Statement	6-16
Input/Output Description	6-16

Hand Calculation	6–16
MATLAB Solution	6–20
Least-Squares Curve Fitting	6–21
Linear Regression	6–21
Polynomial Regression	6–23

## 7 Numerical Integration and Differentiation

Overview	7–1
Numerical Integration	7–2
Trapezoidal Rule and Simpson’s Rule	7–3
Quadrature Functions	7–4
Problem Solving Applied: Pipeline Flow Analysis	7–9
Problem Statement	7–10
Input/Output Description	7–10
Hand Calculation	7–11
Numerical Differentiation	7–16
The Derivative and the Slope	7–17
Derivative Approximations using Differences	7–18
The MATLAB <code>diff</code> Function	7–19

## 8 Differential Equations and Lumped Element Circuits

Introduction	8–1
The Time Domain Response of RLC Circuits	8–1

## 9 Symbolic Mathematics

Introduction	9–1
Overview of the Capabilities	9–2
Symbolic Algebra	9–2
Symbolic Expressions	9–2
Simplifications	9–5
Operations on Symbolic Expressions	9–6
Equation Solving	9–9
Solutions to Equations	9–9
Solutions to Differential Equations	9–11
Revisit the RLC Circuit of Chapter 8	9–11
Differentiation and Integration	9–14
Differentiation	9–14
Comments for Practice! p. 233	9–15
Integration	9–15
Problem Solving Applied: Weather Balloons	9–21

Problem Statement 9–22  
Input/Output Description 9–22  
Hand Calculation 9–23  
MATLAB Solution 9–23

## 10 Signal Processing

Introduction . . . . . 10–1  
Sinusoidal Signals . . . . . 10–2  
    Frequency Domain 10–2  
    Discrete-Time Sinusoids 10–5  
    Discrete-Time Sinusoids in the Frequency Domain 10–7  
Transfer Functions and Filters . . . . . 10–9  
    Analog Frequency Response (Transfer) Functions 10–10  
    Digital Frequency Response Functions 10–11  
Applications . . . . . 10–12  
    Compact Disc Digital Audio 10–12  
    Communication Systems 10–13  
    Bat Echo Location Signal Processing 10–14

## 11 Graphical User Interface Design in MATLAB

Introduction . . . . . 11–1  
Overview of GUI Design and the Supplied Development Tools . . . . . 11–3  
    Handle Graphics 11–6  
    Guide 11–7  
Building a Simple GUI Application . . . . . 11–10
